

Abraham
by Nishaun Smith

Atheism is a religion divided against itself. It seems atheists don't have the intellectual capacity to realize how much the Christian God has done. Remember, before the Bible the world was filled with cannibals, murderers, child-sacrificers, slavery, sadness, genocide. As the Bible has "conquered" the world it has brought peace to anyone who has truthfully called upon Christ's name. Much love has been spread throughout the world, because of the Bible, much forgiveness. The Bible states that if God should gather up his Spirit and leave, all flesh would perish together, why do atheists wish for this?

Remember, when Abraham was asked to sacrifice his son, child sacrifice was normal, he may have even been honored to prove himself to God. When God withdrew this "offer," Abraham was left with the realization that God was not one of the gods that wanted children to be sacrificed. Unlike other gods he is only appeased and pleased by the sacrifice of his own Son.
