

Help the future
by Nishaun Smith

We have lost the past, so many times.

Let us stop killing children and feed the ones that are alive.

Gays are stupid, because, children need fathers.

A vote for evolution is a vote for the devil.

This is his fantasy, no dog can ever be a man.

No angel can ever be God.

Help the future, don't ever forget the past.

We were not created by monkeys or gays!
